

HOSTEL BOOK PORTAL

PURPOSE

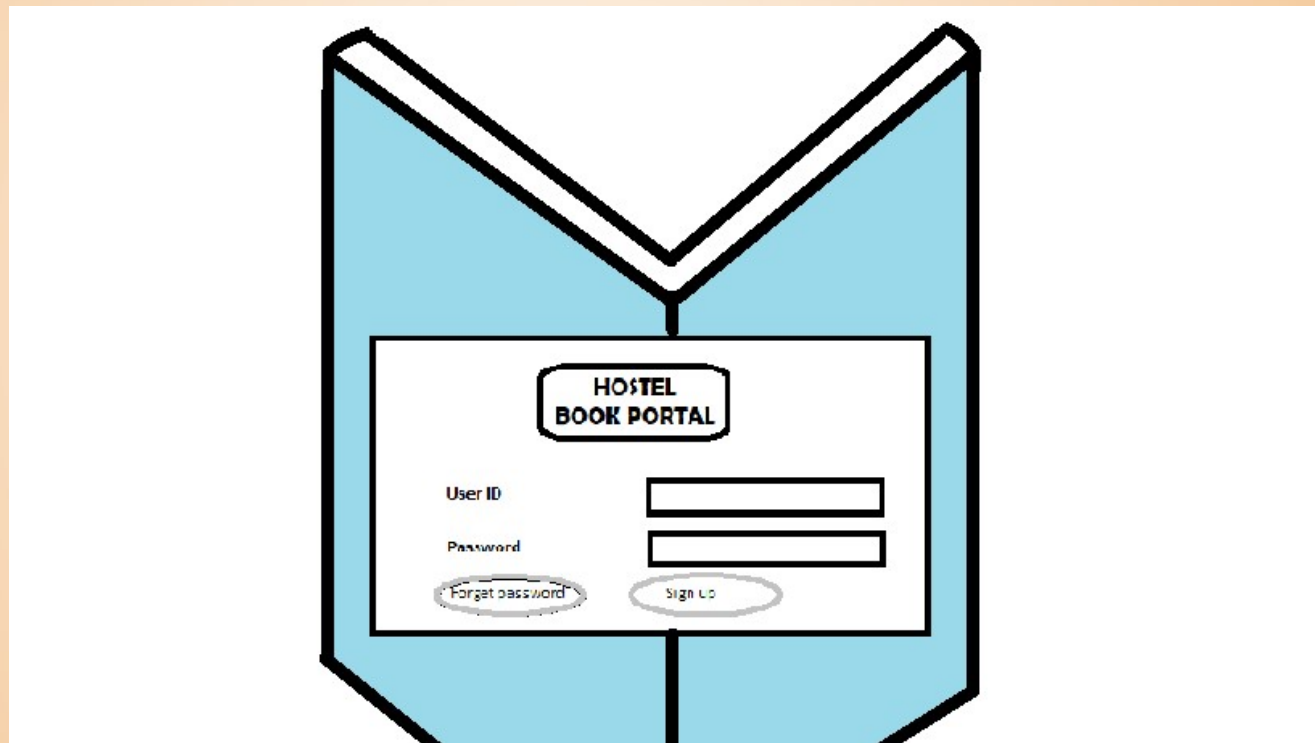

- The main purpose of Hostel Web Portal is to facilitate Hostel students, a medium to buy and sell books amongst the college campus or among the hostel itself, just as we buy and sell used books to Book store.
- Here, we do not involve any other intermediary service during the process, its only a buyer and a seller.
- No other Hosting address will be required. Our Hostel Book Portal will be hosted in the institute's website itself.

FUNCTIONALITY

- To inquire for any book.
- To post our request.
- To Search any book with respect to its Title and author's name.
- Notification for any request.
- Classification of books based on different domains.
- Description box, Comment box and Contact buyer box for every book request posted in Book Portal.
- Special section for the Issues/Feedback regarding our web portal

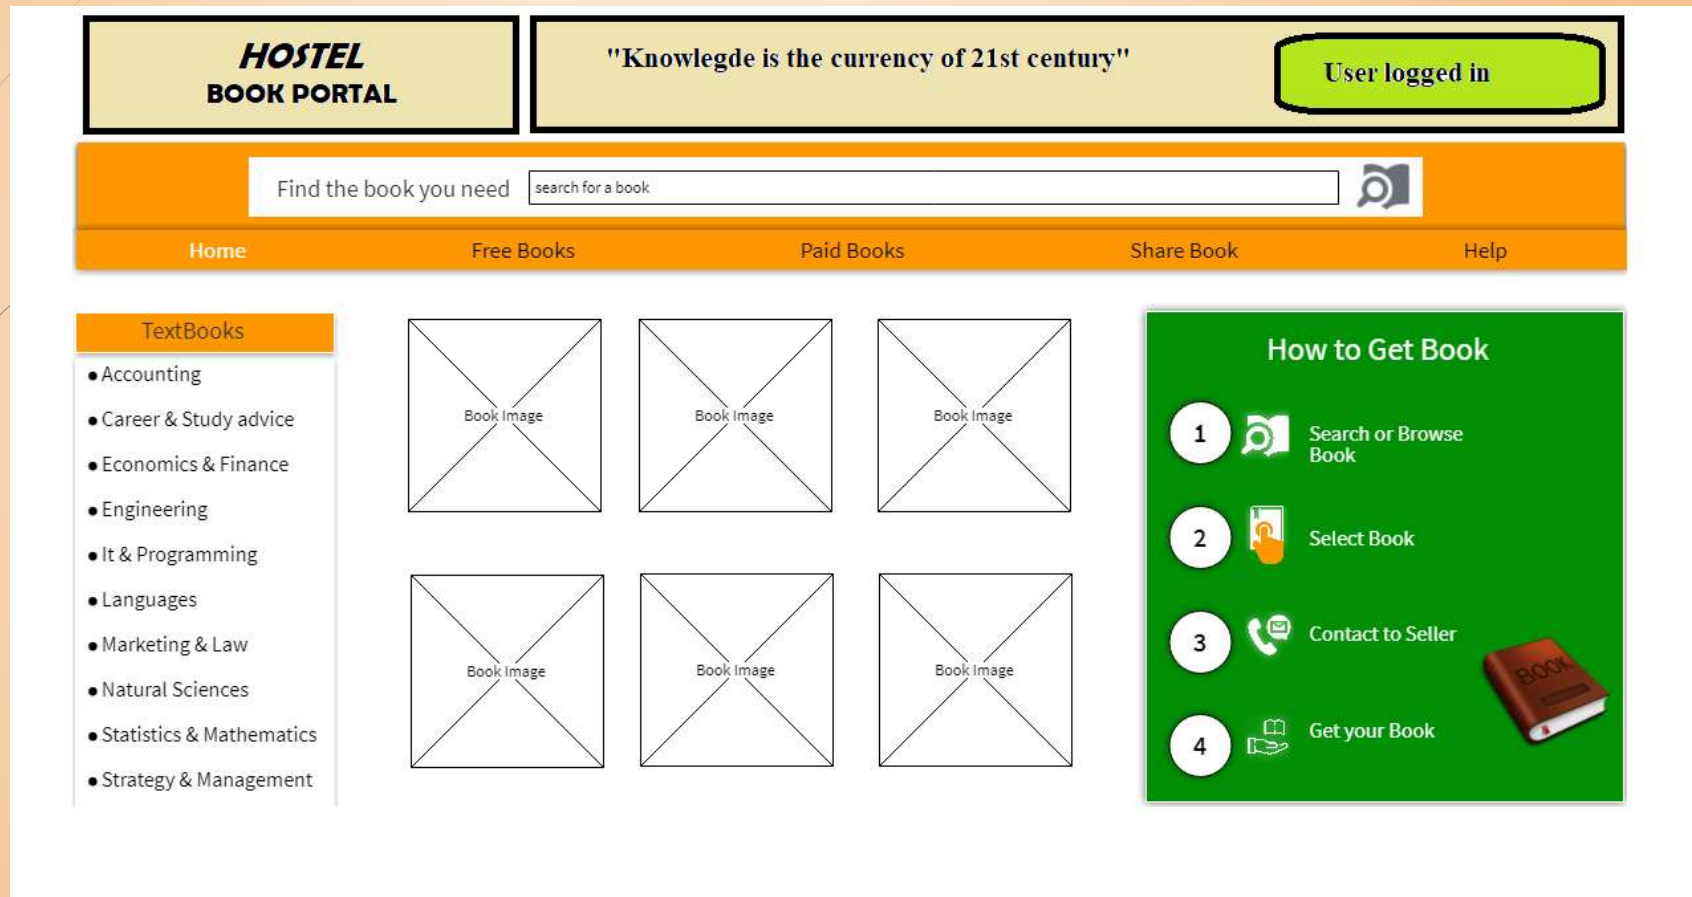

PROTOTYPE FOR LOGIN UP PAGE

The image shows a 3D perspective of a light blue book-like structure. The front cover is white and contains the following elements:

- HOSTEL BOOK PORTAL**: A title in a black-bordered box at the top center.
- User ID**: A label to the left of a horizontal input field.
- Password**: A label to the left of a second horizontal input field.
- Forget password**: A button represented by an oval at the bottom left.
- Sign Up**: A button represented by an oval at the bottom right.

PROTOTYPE FOR HOME PAGE

PROBLEM DOMAIN

- Existing systems are still a manual process thereafter problems faced are
 - Time consumed is more.
 - As number of hierarchies involved during buying and selling of a particular book, the cost of book is again proportional.
 - We have to buy books or sell books at the time when the shopkeeper is available.

GOALS

- ❖ User Friendly navigations
- ❖ Help user by providing description related to the book or any other study material.
- ❖ Wish List Box for the buyer in order to post his/her requirements
- ❖ Maximum search options-
 - (1) By title
 - (2) By author
 - (3) By Subject

ADVANTAGES

- Convenient to buy books as near as possible
- Wastage of time will never be an issue
- Searching becomes easy
- Cost Savings:- As the hierarchy of buying-selling process of a product decreases, the cost of that particular product also decreases.
- To sell or buy books from a shopkeeper, its better to help our institute's friends, which would be again a beneficial as the book vendor just sells books, but your seller might sell you knowledge on the various topics, you find it difficult.

SCOPE

- It is only limited within College Hostel's Premises.
- To add/remove user, manage their accounts.
- To provide wide collection of Book ranges.
- To provide user-friendly environment.
- To provide facility of user feedback.
- To reduce User's precious time in search of books.

LIMITATION

- This web portal does not store transaction, nor gives the facility of cashless transaction. It just provides the platform where buyers meets sellers. Afterwards, the business is done over the phone or email (Where to meet, What's the price, etc.)
- Only built for College Hostel Premises.

Thank you
